Double booking prevention

The screenshot shows the 'Create Booking' page in the EventEase application. The left sidebar contains navigation links: Dashboard, Venues, Events, Bookings (selected), and Customers. The main content area is titled 'Create New Booking' with the subtitle 'Reserve the perfect venue for your next event'. A red error message at the top states: 'This venue is already booked during the selected date and time.' Below this, there are four dropdown menus: 'Select Venue' (FNB Stadium), 'Select Event' (Mamelodi Sundowns vs Sekhukhune United), 'Select Customer' (Simba Rashe), and 'Booking Specialist' (specialist@eventease.com). Each dropdown has a small icon to its left. At the bottom, there is a 'Start Date & Time' label. The user's profile 'mrprospace1' is visible in the bottom left, and a 'Welcome, mrprospace1!' message is in the top right.

Deleting Venue which has an active booking error

The screenshot shows the 'Delete Venue' page in the EventEase application. The left sidebar is the same as the previous screenshot. The main content area is titled 'Delete Venue' with the subtitle 'Review this venue before removing it from your venue catalogue.' A red error message at the top states: 'Deletion blocked. This venue is linked to existing bookings and cannot be deleted while booking records still reference it.' Below the error message, there are two boxes: 'LOCATION' (FNB Stadium, Stadium Avenue, Aeroton, Johannesburg Ward 125, Johannesburg, City of Johannesburg Metropolitan Municipality, Gauteng, 2001, South Africa) and 'CAPACITY' (90000 guests). A 'Back to Venues' button is at the bottom right. The user's profile 'mrprospace1' is visible in the bottom left, and a 'Welcome, mrprospace1!' message is in the top right.
